

Greenlight Planet's Sun King™ Eco redefines affordability and longevity for the world's off-grid population.

Designed from the ground up to replace kerosene lanterns in off-grid homes, the Sun King™ Eco provides light up to 2 times brighter than the "Hurricane" kerosene lantern and up to 30 hours of light per day of charge.

Light runtime after one sunny day of solar charging:

Low Power	4 Lumens	30 Hrs
Normal Power	10 Lumens	10 Hrs
Turbo Power	25 Lumens	04 Hrs

Sun King™ Eco Technical Specifications

LEDs	Single power LED, >130 lumens per watt, neutral color temperature
Battery	3.3 volt, 600 mAh LiFePO ₄ battery
Solar Panel	4.7 volt, 500 mW thin-film panel with aluminum frame and 5 meter wire
Light Beam	360-degree ambient wide-angle spread
Enclosure	Polycarbonate and ABS IP54 rated, water-sealed enclosure

Smart Electronics

- Charge Indicator:**
Blinks 1 through 5 times to indicate solar charging speed. Blinks continuously when fully charged.
- Cloudy Day Ready:**
Low power mode provides hours of light even on cloudy days. Spot mode saves power by providing an intense, focused task light beam.
- Intelligent Battery Monitor:**
Active battery management yields five extra hours of low-power light after battery runs low.

Bright Home Lighting

With its 25-lumen, warm-temperature LED light, Sun King™ Eco conservatively yields an astounding 30 hours of light from a single sunny day of solar charging, without expensive kerosene or the carcinogenic fumes that accompany it.

It is an ideal light for the entire family: it can be hung above to light a room, placed on a desk for reading or easily carried by hand.

- 25 lumen, warm-temperature light output
- Flexible mount: Adjustable lantern stand, hand-carry strap or ceiling mount options

● Breakthrough Longevity

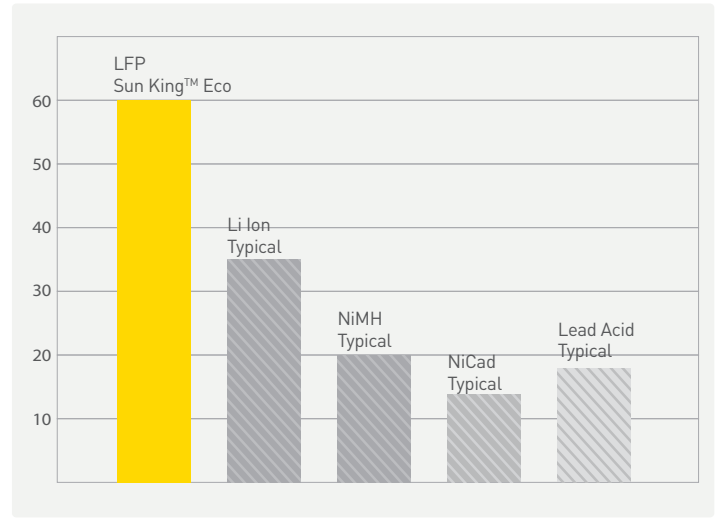

Drop it, stomp it, or splash it. From its water-sealed, nearly unbreakable polycarbonate shell, to its industrial-grade, aluminum-framed solar panel and durable steel stand, Sun King™ Eco is built to last in tough environments. Its longer-lasting, quality-tested components set the gold standard for product lifetime.

Revolutionary Batteries

Unlike lamps using cheaper, short-lifetime lead-acid or Ni-Cad batteries, Sun King™ Eco's battery lasts for five years before replacement.

Unbeatable Solar Panel Durability

Unlike other products in its price range, Sun King™ Eco uses a detachable solar panel with a repairable junction box, and a five-meter cable. The 500 mW, aluminum-framed, industrial-grade glass protected solar panel is far more durable than alternatives based on polycarbonate or epoxy encapsulation, both of which degrade quickly in harsh environments.

Battery life in months

● Happy users, around the world

The Sun King™ family of products deliver immediate quality of life impact. Their high production quality and attention to durability mean users enjoy reliable performance for years and years, hassle-free.

Around the world, the Sun King™ family has seen its users grow into happier, healthier and more productive lives.
